## General Project Plan Exhibit D

Summary of Transportation Improvements

**Transportation Improvements Summary** 

Transportation Improvements Summa			
Map Number*	Transportation Improvement		
1a	Establish the East-West Connector below West 33rd Street, connecting the 34th Street-Herald Square and the 34th Street (Seventh Avenue)—Penn Station Subway Stations, providing access to Sites 7 and 8 and including emergency midblock egress.		
1b	Establish the East-West Connector below West 32nd Street, connecting the 34th Street-Herald Square and the 34th Street (Seventh Avenue)—Penn Station Subway Stations, providing access to Sites 7 and 8 and including emergency midblock egress. This option would include a new undercrossing below 7th Avenue between West 31st and West 32nd Streets.		
2	Widen the uptown local No. 1 platform between West 32nd Street and West 33rd Street, and between West 33rd Street and West 34th Street		
3	New easement subway entrances (Gray shading of map number indicates new entrance with elevator)		
4	Widen the paid zone stair at the west end of the 32nd Street underpass		
5	Add new express No. 2/3 platform stairs		
6	New Penn Station entrances		
7	New Penn Station and new subway station entrance within building (Gray shading of map number indicates new entrance with elevator)		
8	Relocate and widen the downtown local No. 1 stairs and elevator to within Site 5 property line		
9	New below-grade connections to existing Penn Station with publicly accessible in-building connections at Sites 1, 2, and 3		
10 New North-South Corridor under Sites 6 and 7			
11	New fare control area at the West 33rd Street underpass; reconfigure West 33rd Street free zone underpass and widen stair and new elevator; reconfigure fare control area with new elevator; widen paid zone stair and relocate elevator		
12	Construct additional escalators and/or other vertical circulation elements as needed in consultation with the MTA and NYCT		
13	Reconstruct two mezzanine stairs connecting the N/Q/R/W and B/D/F/M subway lines and reconfigure the fare control area at the B/D/F/M mezzanine level		
14	Replace the PATH elevator in the new building on Site 8 (only if the existing building on Site 8 is demolished and a new building constructed. If Site 8 is developed with a residential overbuild above the existing building, the existing PATH elevator would be maintained.)		
15	Widen the uptown local C/E platform between West 33rd Street and West 34th Street		
16	Build one new express platform stair and widen two existing express platform stairs		
17	Build new passageway to connect 33rd Street Penn Station concourse with A/C/E subway mezzanine between 33rd Street & 34th Street, build two new uptown local C/E platform stairs, and reconfigure fare control area
